Dear Dave,

For some time I've been interested in the many things attributed to Madeleine Brown, including but not limited to what Harry Livingstone quoted.

From these I believe her ~~word~~ unsupported word can't be taken for anything.

I've heard that she has some kind of official record, perhaps in a court case, of not being truthful.

If you have anything of that sort I'll appreciate a copy.

Hope all is going well with you(pl).

Between us we have now accumulated 159 years, 55 in marriage.

Since hearing from you I was twice hospitalized for congestive heart failure and from the report to my local doctors from Johns Hopkins, where they ambulanced me 10 months ago in the belief I'd not make it, eight other fairly serious to serious problems.

But I'm still working, albeit many fewer hours daily. Send me!

Best to you all, and thanks for anything you can ~~send~~me,

Harold
